

1. Matching Skills

- Python
- Flask
- REST APIs
- SQL
- Git
- Docker

2. Missing Skills

- Understanding of CI/CD pipelines
- Experience collaborating with frontend developers and DevOps teams (not explicitly mentioned)

3. Suggestions to improve the resume

- Include a section on collaboration experience, particularly with frontend developers and DevOps teams, to highlight teamwork skills.
- Add any experience or knowledge related to CI/CD pipelines, even if it's basic or self-taught, to address the job requirement.
- Provide more details about the impact of your work at TechSoft Inc., such as improvements in efficiency or performance metrics.
- Consider adding any relevant projects or certifications that demonstrate additional skills or knowledge.

4. Fit Score: 85/100

- John Doe's resume aligns well with the job description, showcasing all the core technical skills required. However, it lacks explicit mention of collaboration experience and CI/CD pipeline knowledge, which slightly reduces the fit score.
